Engine Conversion Packs

The John Cooper Si Pack (Part No: MCC 1275 ST)

The Mini Cooper is back! John Cooper, pioneer of the original Mini Cooper, was instrumental in the car's reintroduction in 1990. During that year, John Cooper launched the Mini Cooper S Pack and after an absence of twenty years, the Cooper S was back! 1992 saw the launch of the Si Pack, providing a powerful conversion for the injection-model Mini Cooper. Fitted with the Si Pack, the injection car offers all the thrills of the original Cooper S, but with up-to-the-minute refinement and today's economy.

And it doesn't end there. John Cooper has developed a range of engine packs to cover all options, from the 1000cc 64BHP conversion to the 108BHP 1400cc flyer!

For The Mini Cooper 1.3i

The John Cooper Si Pack (Part No: MCC 1275 ST)

The Si Pack is a conversion for the Mini Cooper 1.3i, which squeezes even more performance from a truly responsive car. The Si Pack has total approval and backing from Rover and comes complete with a full warranty.

The Si Pack consists of a new performance cylinder head (exchange) which is fully balanced, ported and polished, and features a raised compression ratio. A new exhaust is also included, which allows better gas flow while simultaneously boosting power and

MinipassionMini.com

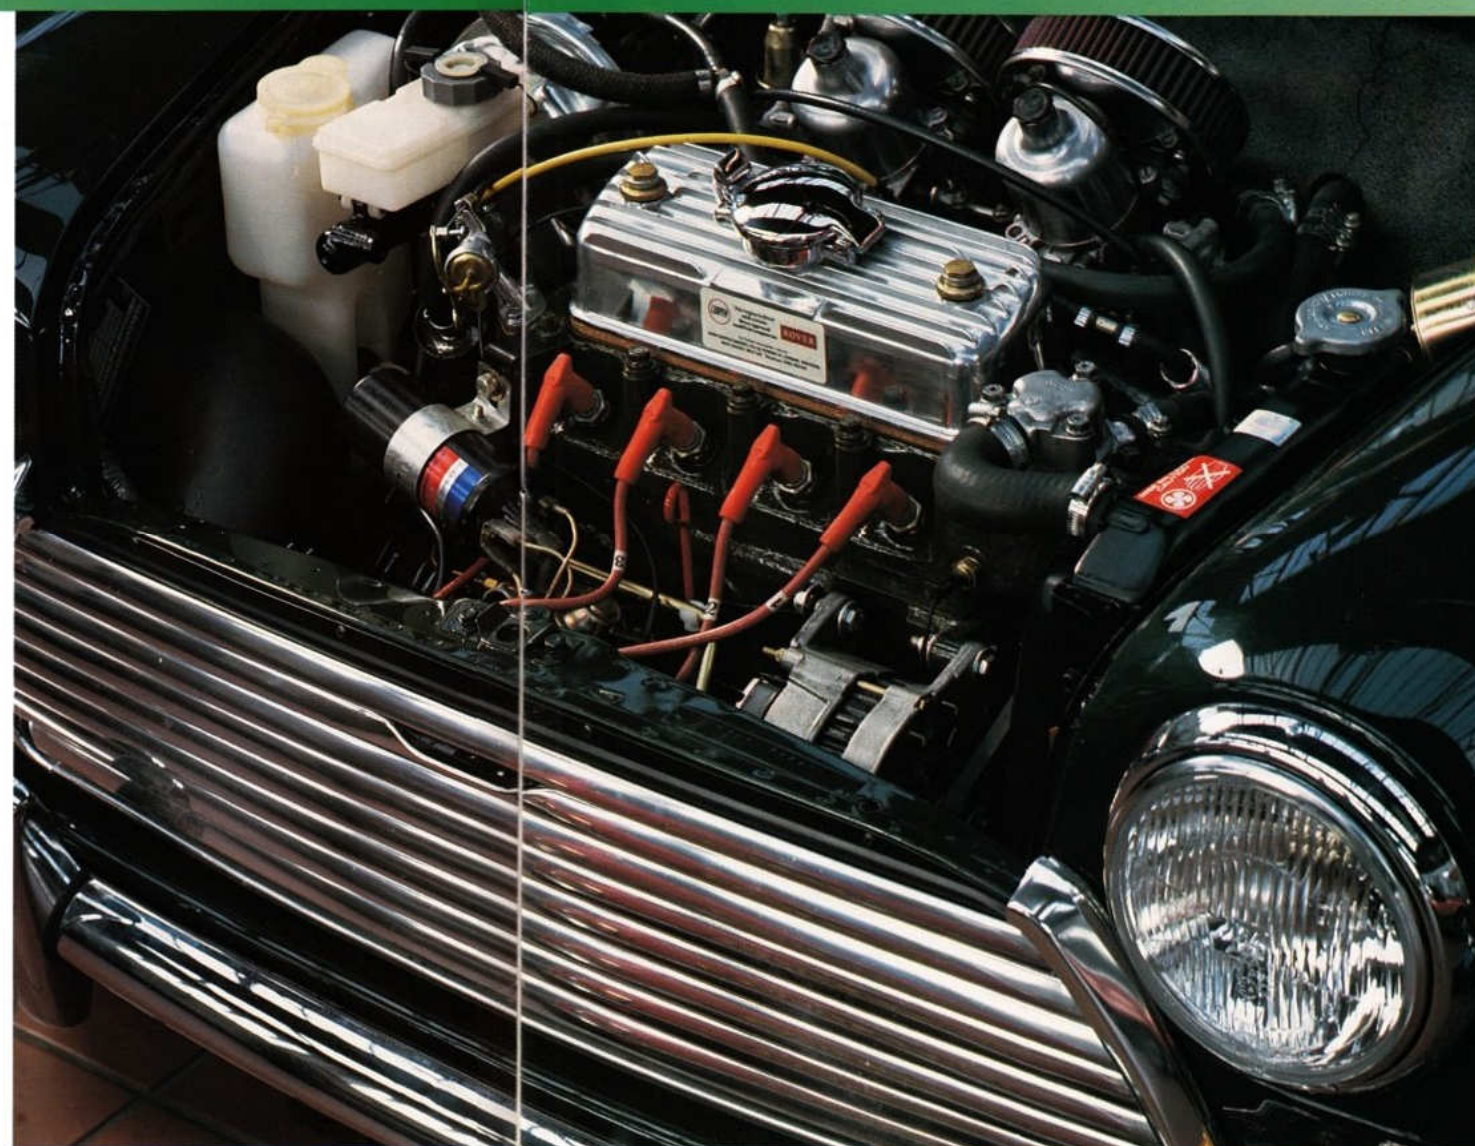

retaining the standard catalyst. Available power is increased to 74BHP.

A complete oil cooler kit with a new fan pulley is also included, together with a distinctive Cooper rocker cover and attractive exterior S decals. In addition, each conversion comes with its own numbered chassis plate and conversion certificate endorsed by John Cooper.

The conversion can be fitted by your local Rover dealer or by John Cooper Garages.

The John Cooper Si Plus Pack (Part No: MCC 1275 STS)

The Si Plus Pack gives you just that little extra over the Si Pack, boosting the BHP from 74 to 78. Major additions include a large inlet valve cylinder head together with a set of high-lift rockers and a high-performance K&N air filter. All other components listed in the Si Pack are included.

The John Cooper Twin-Carb S Pack (Part No: MCC 1275 ND)
Complete with optional Final Drive & Oil Cooler Kit

For The 89-92 Mini Cooper (Carburettor model)

The John Cooper Twin-Carb S Pack (Part No: MCC 1275 ND)

The 1275 S Pack really is the enthusiast's choice. Just like its famous predecessor, our 1990s Cooper S captures all the excitement of the original classic by pushing out 78BHP. Everything is included in the kit to transform your carburettor-based Cooper, and the kit features a new performance cylinder head (exchange), complete new exhaust system, twin 1.25inch SU carburetors, an air filter box and, just like the Si Pack, all the necessary paperwork.

The John Cooper Twin-Carb S Plus Pack (Part No: MCC 1275 RD)

Same as the S Pack but with a large inlet valve cylinder head and a set of high-lift rockers boosting the available power to 80BHP.

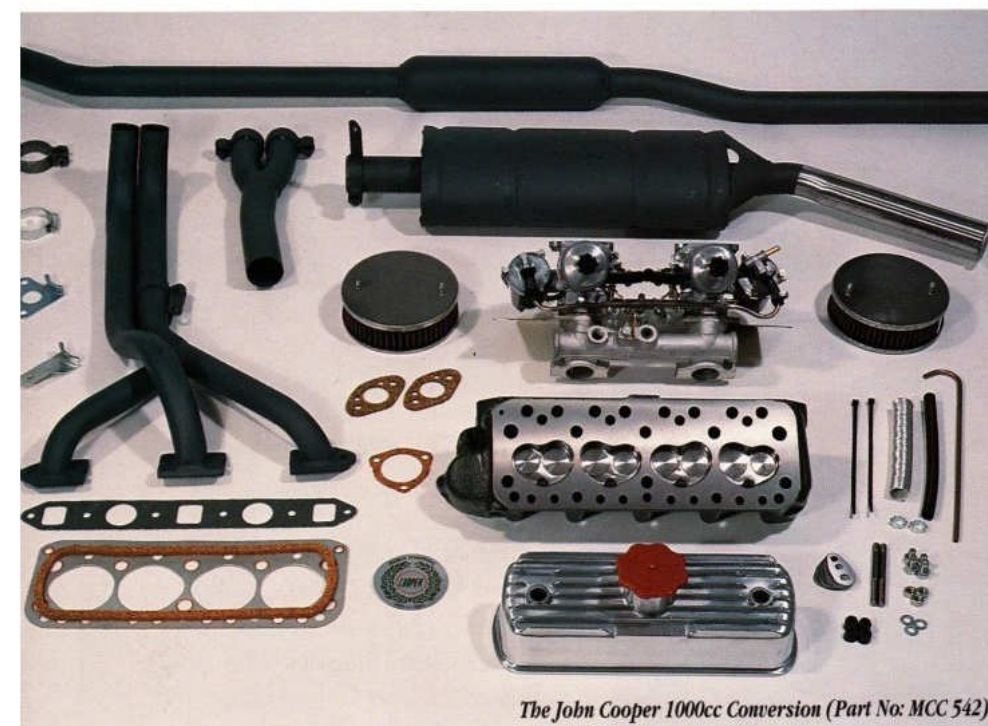

The John Cooper Single-Carb Europe Pack (Part No: MCC 1275 SP)

The Europe Pack was developed for Rover Germany and has proved to be a great success. The Pack utilises the same components as the S Pack but retains the single carburettor and features an additional high-performance K&N air filter. Power is increased to 76BHP.

More Power!

Handling Pack

The John Cooper 1000cc Conversion (Part No: MCC 542)

For '92 - On All Mini Types Except Cooper

The John Cooper Stage II Pack (Part No: MCC 1275 SPP)

John Cooper has developed a tuning kit for 1275cc Minis that do not carry the famous Cooper badge. The kits are designed to give standard Minis true Mini Cooper performance.

The Stage II Pack comprises an exchange performance cylinder head, new exhaust system, K&N air filter and a replacement carburettor needle. Power is boosted to a very respectable 68BHP.

The John Cooper Single-Carb Europe Pack (Part No: MCC 1275 EC) & Twin-Carb S Pack (Part No: MCC 1275 ECS)

Featuring the same specification as the kits fitted to the Mini Cooper S, the Single- and Twin-Carb kits also have a camshaft to bring a standard Mini right up to Cooper S specification.

For All 1000cc Minis

The John Cooper 1000cc Conversion (Part No: MCC 542)

This conversion has been a great success - a success which led directly to the reintroduction of the Rover Mini Cooper. When fitted to a standard Mini 1000cc,

available power is boosted by an incredible 50 per cent to 64BHP - and it runs on unleaded too!

For All Carburettor Mini Or Cooper Models

The John Cooper 1400cc Conversion
This is the *ultimate* road car conversion. It was developed by the best engineers - experts with years of experience.

As you might expect, the best doesn't come cheap, but an exceptional performance of 108BHP and 0-60MPH in just 7.5 seconds may go some way towards providing solace...

Modifications and components in this truly brilliant conversion include a rebore to 1400cc, forged racing pistons, a new Stage III cylinder head, new specially designed camshaft, twin 1.5 inch SU carburettors, a new large-bore exhaust manifold and system, new 3.44:1 final drive, a set of high-lift roller rockers, oil cooler and more. The 1400cc conversion is available for fitting only at John Cooper Garages, quotation on request.

The Final Drive Kit

(Part No: MCC 532)

For even better acceleration and performance, John Cooper Garages are able to offer a complete kit for altering your car's final drive ratio to 3.44:1.

The Oil Cooler Kit

(Part Nos: MCC 516/MCC 517)

Complete oil cooler kits are available as an extra to all S Packs (but are included as standard in all Si Packs).

The John Cooper Sports Handling Pack

(Part No: MCC 510)

Thousands of words have been written in praise of the Mini's handling characteristics. To improve these qualities even further, we've developed the John Cooper Handling Pack consisting of five low-profile 165/60x12 tyres specially developed for the Cooper by Dunlop, rear-wheel clearance spacers complete with new wheel studs and Koni adjustable shocks added all

Up-rated Brake Kit

(Part No: MCC 274)

The Up-rated Brake Kit is a recommended additional improvement to compliment our 1400cc Conversion. This kit comprises two new ventilated disc brakes, new dual-brake calipers, hoses and fittings. Stopping power is considerably increased - a necessary requirement for our fast road-engine performance kits.

Rear Wheel Spacer Kit (Part No: MCC 521)

round. The end result prompted *Car* magazine to comment "the car was beautifully set up, not only for the neutrality of the handling, but also for the level of ride comfort. As for cornering grip, it sticks to the road better than the white line".

The John Cooper Handling Pack is a complete kit shipped ready for fitting, although individual components which go to make up the kit may be purchased separately.

The John Cooper Sports Handling Pack (Part No: MCC 510)

John Cooper Luxury Seating

The John Cooper range of seating adds total luxury to your Mini. The Cooper front seats are top of the range recliners, designed with long distance touring in mind, offering both comfort and support to driver and passenger. The seats come complete with adjustable head rests and specially made seat subframes offering a range of positioning and easy access to the rear of the car. Our top of the range leather covered recliners, which are available in black, are made of the finest quality leather hide. These are also available to special order in a wide range of colours and seat piping.

Our Cooper Cloth seats are made to the same high standards and are available in black. They may also be ordered in a range of vinyl coverings. Seats are also available with centre panels matching Rover's own Lightning material.

Our rear seats are of co-ordinating designs and are available in black leather, cloth or, of course, to your own requirements. We can cover your existing seats, subject to quotation, or will arrange part exchange.

All our seats are fully guaranteed and our range of Cooper recliners have been tested and passed by rigorous German TUV safety standards.

Luxury Interior Accessories

John Cooper Leather Steering Wheel (Part No: MCC 6)

John Cooper Flat Wood Steering Wheel (Part No: MCC 81)

John Cooper Dished Wood Steering Wheel (Part No: MCC 258)

Steering Wheels

Closely modelled on the sixties Grand Prix cars, a John Cooper steering wheel adds a touch of class to any modern Mini. Designed and built by the world-renowned Mota Lita company, each wheel comes embossed with John Cooper's signature.

The wheels are available in black leather or wood finish and each has a ready-to-fit fixing kit and polished centre cap, made unique with the Cooper centre badge.

Our steering wheels measure 13 inches and are available with dished polished spokes, while our wood-rim wheels are available with either dished or flat polished spokes.

We are also able to offer special boss kits with horn push for early classic Mini Cooper models.

Gear Knobs

We offer a complete range of gear knobs to suit your own requirements. There is our traditional leather gear knob with Cooper centre badge, and a range of

wooden gear knobs to compliment your chosen wood interior. And if that's not enough, our specially-commissioned hand-made alloy gear knob with Cooper centre badge is the ultimate in gear stick accessories.

Kenwood Hi-Fi Systems For All Minis

System 1: MCC 267 Cassette-Receiver
High-power and a comprehensive feature list explain the popularity of this model. Advanced tuning with automatic memory entry, auto-reverse cassette deck with the world-renowned Dolby noise reduction system, and a removable chassis design for maximum security.

System 2: MCC 529 CD Player-Receiver with 2-Way Speakers
Experience the digital quality of compact disc. The floating mechanism protects discs from shock and the system offers a high-power amplifier, fully-featured tuner with automatic memory entry and a removable chassis for ultimate security.

System 3: MCC 530 Cassette-Receiver RDS CD autotuner, 2-way speakers
This system combines the convenience of a multiple CD player with the latest generation 10-disc RDS. Now you can be kept informed of road conditions while listening to CD, cassette or radio. Security is assured with the removable front panel.

John Cooper offers a comprehensive range of hand-built luxury interior fittings. Our alloy fittings are carefully manufactured to exacting standards and fashioned from lightweight and exceptionally strong material. All items are polished to a mirror-like finish.

Alloy Door Pulls (Part No: MCC 524)
For that quintessential 'racing' look, these door pulls come ready to fit

Alloy Door Opener Handles (Part No: MCC 522)
Attention to detail and superb styling makes these door opener handles a must-have for any owner. Fitted with our alloy window winders the effect is startling.

Mats with Cooper logo (Part No: MCC 68)

Stainless Instrument Cover (Part No: MCC 263)
Specially designed for three-dial Coopers, and based on the dashboards of racing Coopers. This precision-made cover fits straight over the standard dash providing instant appeal to any dash. An added feature is the cover's brushed finish which effectively eliminates driver glare.

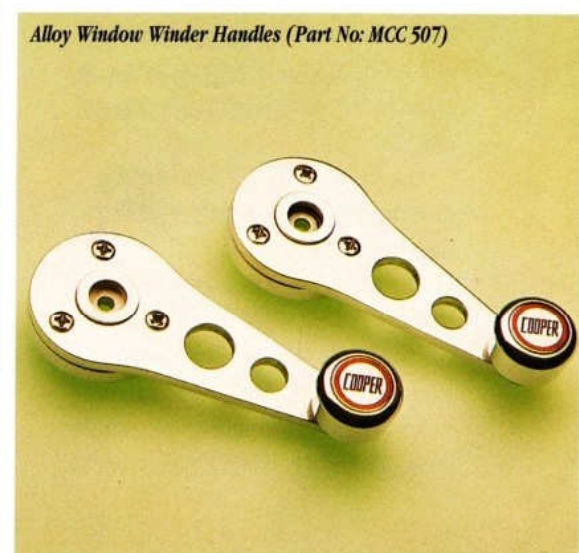

Alloy Door Lock Covers (Part No: MCC 523)
Hand crafted made from lightweight alloy, a classy replacement

Alloy Window Winders (Part No: MCC 507)
Expertly engineered for ease of operation and stylish good looks, these window winders fit perfectly in the space vacated by your existing standard winders. Each winder is complete with an enamelled Cooper centre badge.

Alarm Systems
Manual (Part No: MCC 279)
Remote (Part No: MCC 280)
Both systems feature voltage sensitive switching circuits for doors and bonnet, engine immobilisation, supplied complete with all fittings.

Seat Adjuster brackets (Part No: MCC 21)
Steering Wheel Lowering Clamp (Part No: MCC 504)

Maple Gear Knob (Part No: MCC 297)

MinipassionMini.com

The John Cooper range of beautifully-styled wooden dashboards and interior fittings are crafted from top-quality wood veneer and finished in a superb heavy-lacquer clear resin for aesthetic appeal and durability. Quality such as this is available only on today's most prestigious cars.

Our dashboards come with opening glove apertures and a radio slot perfectly-sited for ease of operation.

Our wooden interiors and fascias are available in three stylish finishes: walnut, elm and maple, and come as a complete kit ready for fitting. Alternatively, choose a dashboard, and add door cappings, door pulls and a gear knob later.

Elm Complete Interior Kit (Part No: MCC 557)

Complete Interior Kits

Walnut Complete Kit (Part No: MCC 594)
Comprises dashboard, gear knob, four side cappings and two door pulls all finished in traditional walnut veneer.

Elm Complete Kit (Part No: MCC 557)
As per the walnut kit but finished in our stylish elm veneer.

Maple Complete Kit (Part No: MCC 559)
As per the walnut kit but finished in our very different maple veneer.

Maple Dash (Part No: MCC 259A) with Gear Knob (Part No: MCC 297)

Luxury Exterior Accessories

John Cooper offers a wide range of exterior accessories which are shipped ready-to-fit to give the Mini in your life that exclusive look. Our latest addition is our very own manufactured alloy fuel cap which is a real must for every Cooper enthusiast searching for the elusive race appearance.

Right-Hand Fuel Tank Conversion (Part No: MCC192)

A complete ready-to-fit kit mirroring that of the original sixties Cooper S. Available only for carburettor cars – grand touring without the top-ups! (professional fitment recommended).

Electric Aerial (Part No: MCC 275)

Ready-to-fit, complete electric aerial kit.

Set Of Four Cooper Wheel Badges (Part No: MCC 511)

Exact copy of the original 60s Cooper Formula 1 racing car wheel badges – look great!

Set Of Locking Wheel Nuts (Part No: MCC 234)

Complete security for your alloy wheels.

Bumper Overriders & Corner Bars

Available as per original Mk1 Coopers with corner-bar kit (use **Part Nos: MCC 515** and **MCC 69**). Or as original Mk2 Coopers (use **Part No: MCC 512**).

Stainless Steel Door Sill edgings (Part No: MCC 525)

Supplied ready-to-fit, and etched with the John Cooper name, these are a superb finishing touch for any Mini.

John Cooper Monza Alloy Fuel Cap (Part No: MCC527)

Fashioned from lightweight alloy, this fuel cap epitomizes the early Le Mans racing car fuel fillers.

Featuring a quick-release for easy access, and locking for today's security. Comes ready to fit.

John Cooper Bonnet Stripes

Available in white as a pair with contrasting black John Cooper signature (**Part No: MCC 230**), or in black with contrasting white signature (**Part No: MCC 231**).

John Cooper Bonnet Signature

Perfect finishing addition for existing bonnet stripes. White, **Part No: MCC 232**, and black, **MCC 233**.

Auxiliary Spotlamp Kit (Part No: MCC 235)

For a lighting boost in hazardous driving conditions. Our Spotlamp Kit comes complete with fitting kit.

John Cooper Electric Sun Roof (Part No: MCC 227)

Fitted as standard to Rover's British Open Classic, this is the ultimate in open-driving for the Mini.

Almost full roof length, and operated at the touch of button, the John Cooper Electric Sunroof is constructed of high-quality materials and trimmed to match your existing headlining.

Can be supplied as a kit for professional fitting or, can be fitted by us subject to arrangement.
