

Some people are never satisfied. Whatever car they've got, they want something better. And there's nothing wrong with that.

But what happens is that they get into the habit of adding little extras. To go faster, maybe. Or stop sooner. Or handle better. Or just to look better. So when it comes to a simple thing like their oil, they just can't resist adding a little extra something to it.

Quite frankly, if anyone's using an oil that needs extra pour-in goodies,

then they're using the wrong oil.

Now if this all sounds like something you do, then you need something we do.

Namely, Castrol GTX. Like the perfect cocktail, it's a precise blend of many ingredients. And it needs extras like you need a hole in the head.

In fact Castrol GTX is one of the few things you can add to your car that actually gives you little extras.

Like extra engine life, extra power and extra miles per pint.

**Put heart in your car
with Castrol GTX.
The high performer.**

**The only extra you have to add
to our oil is your car.**

**The
pourer's
built-in!**

MinipassionMini.com

More British motorists choose Castrol than any other oil.
