

"One drive of the *S works* and you're hooked"

Graham Hale, Graphic Designer

"Even though I design the ads and catalogues for John Cooper, I haven't owned a Mini since the '70s, and never a Cooper S! But driving the new *S works* on a recent photo shoot was a revelation. I was hooked. The vibrant interior with "engine turned" stainless dash and cappings plus all the alloy fittings, gives the car a really racy feeling that matches the brilliant 90bhp performance and handling. It's a great combination, I just couldn't resist it, so I've bought one!"

Prices for the new Cooper *S works* start from £12,495. Buy one for yourself!

To get the full picture, send for the new 1999 24 page full colour brochure, or test drive one for yourself at The John Cooper Mini Cooper Centre in Sussex.

"Get your hooks into an *S works*, buy one and get free"
